

This heatmap displays the distribution of the 'Age' variable across 24 categories (0 to 23) for each of the 24 categories (0 to 23). The color scale ranges from dark purple (low values) to bright yellow (high values). The highest values are concentrated in the middle categories, particularly around age 10-15, where the color is bright yellow. The values decrease as the age categories move towards the extremes (0 and 23), where the color is dark purple.
